

The neuroprotective antiglaucoma therapy

Brimodin

Brimonidine tartrate 0.2%

EYE DROPS

**Significantly
better IOP[#]
control than
timolol¹**

**Safe in
cardiac and
pulmonary
patients²**

**Offers
neuroprotection
to maintain the
optic nerve
health^{3,4}**

**Shows no
evidence of
tachyphylaxis
over the
12-month
period⁵**
