GLAUCOMA DIAGNOSTICS
SKILLS TRANSFER WORKSHOP

Invitation

GLAUCOMA DIAGNOSTICS SKILLS TRANSFER WORKSHOP

GLAUCOMA DIAGNOSTICS SKILLS TRANSFER WORKSHOP

Glaucoma is a disease which has to be defined, staged, and longitudinally assessed and treated, based upon the structural appearance of the optic nerve and its function.

Careful and accurate measurement of intraocular pressure, classification of type of glaucoma based on gonioscopy and optic nerve head examination becomes an indispensable trait for diagnosis and disease management.

We, at Cipla Foresight, take pleasure in introducing to you a program called Drishti, which is a Glaucoma Diagnostics Skill Transfer Workshop. Drishti is a hands-on workshop on Gonioscopy, Perimetry, Pachymetry, Disc Evaluation and Imaging Techniques.

Profile of Chief Instructor: **Dr. XYZ**

The brief outline of the program is as follows:

Time

8.00 am to 10.00 am
